## Glass-Tube Fuse

Fast-Acting, 1/4" Diameter Trade Size 3AG, 2A

In stock  
1-9 Packs \$2.72  
10 or more \$2.31  
7085K52

Fuse Type	Glass
Protection Type	Fast Acting
Manufacturer Equivalent	312, AGC, GGC
Fuse Trade Size	3AG
Current	2 A
Voltage	250V AC
Breakthrough Current	10,000 A @ 125 V AC
Overall Length	1 1/4"
Overall Diameter	1/4"
Number of Elements	1
Blown Fuse Indicator	Yes
Specifications Met	UL Listed

These fuses open circuits quickly when surges are detected. The clear glass tube makes it easy to see when fuses open. Use them with electronics, control panels, and other sensitive components. Select them by their diameter. Designed for use with [Fuse Blocks for Glass-Tube Fuses](#).

Breakthrough current, labeled on the fuse as IR, is the maximum current that a fuse can safely stop in the event of a short circuit.
